I don't know if any of you guys have seen the movie Richie Rich? Anyways I remember he had a scientist working for his father that made a robot bee and I remember saying to myself "that's so fake, that will never happen in my lifetime".... I was wrong.

My father does, and he even participated in developing things like the AirPenguin, the SmartBird, the Bionic Handling Assistant and the BionicOpter.

I can tell you, it is a GREAT job! :)

Beeindruckend. Allein schon, dass Jemand die Entwicklungsabteilung daran arbeiten lässt ... wirklich Top!

It's not as good as you think. The company is good, but we don't see much of that stuff on our normal Workplaces :D
