Corporate Overview

Syntapa Technologies is a Canadian Microsoft Certified ISV Partner with over 25 years experience in designing, implementing and supporting integrated enterprise-wide business systems solutions that satisfy real business requirements.

- Microsoft recognized Syntapa in 2010 for the value we offer to small and medium sized businesses with our Unified Office solution. Syntapa was a Canadian Microsoft Impact Awards finalist.
- In 1997, Syntapa's eIS applications suite was the International Winner of the Microsoft Business Applications of the Year Award in the "Not for Profit" category.

What We Do:

As an organization, our focus is to increase our clients business productivity by leveraging Microsoft technologies (including SharePoint, MS Office, Lync, etc.) and combining that with their existing systems investments to create a completely unified enterprise-wide business systems solution.

Utilizing our many years of client success we have built a number of easily deployable SharePoint capability components including:

- Client/Project Summary - From a single web page quickly access key client or project information (tasks, calendar items, documents, emails, contact details, voice messages, etc.)
- A user friendly tool to quickly profile and store all client/project emails, documents, and data into the proper sites, libraries, and folders.
- Document templates library where templates can be created, organized and assigned to other document libraries. Templates appear as an option from the "New" drop-down menu within a user's MS Office application.
- Enterprise wide search capabilities
- Integrations with various third party vendor solutions.
  ...and much more

All of these capabilities are brought together into our Unified Office™ solution that can be deployed and operational within a few days.

100% ROI in 11 Months!

"As a small business owner I was faced with finding the right solution to give us a competititve advantage while minimizing the impact on operations. Syntapa's Unified Office not only addressed our needs, it saved us resources, and time!"

Richard Kluska, *Founder and CEO IP Strategies*

Who We Work With:

We work with many different types of private and public sector organizations who understand and appreciate that client service and responsiveness is their competitive advantage. Our solutions have the greatest impact on organizations that are required to manage many different clients, documents, projects, and information.

Our solutions provide our clients with:

- Increased client service, and responsiveness
- Increased data accessibility, visibility, and accuracy
- Increased team productivity
- Increased team collaboration
- Increased operational efficiency
- Increased returns from their IT investments
