

Gig Werks Staging Development and Workshop

Offer: Staging Development and Workshop

Time Frame: 3 days - **Cost:** \$4,680 or 5 SharePoint Planning Services (SPS) Vouchers

SPS Vouchers can also be used for partial payment

Workshop Description

The Gig Werks 3 Day Workshop is designed to help clients get started with SharePoint and gain a better understanding of what the product is and can do before they begin formal projects and planning. Workshops are fine tuned to deliver content and instruction in the context of the institutions key drivers for adoption of SharePoint.

During the workshop Gig Werks will provide:

Day 1: Staging Environment

- Day 1 will be the installation of a staging environment. Gig Werks will walk through the installation and configuration process of SharePoint on a new server. This server can later be used to test customizations before deploying them to production. It also serves as a testing environment for IT.

Days 2: Introduction to SharePoint

- Day 2 will focus on end user features and the six pillars of SharePoint. This will be functionality that can be done from the web based interface.

| | | |
|-----------------|--------------------------------------|-------------------------|
| Topics Include: | Sites/Collaboration | Web Parts |
| | Office Web Apps | Search |
| | Social Networking in SharePoint 2010 | Content Management |
| | Business Intelligence | Security and Governance |

Days 3: SharePoint Tools & Administration

- Day 3 will focus on the usage aspects of SharePoint from an IT and power user perspective offering both views on the content which resides in a SharePoint farm.

| | | |
