SharePoint Forms bundle

All you need to implement sophisticated, SharePoint-integrated form-based solutions for Web or Mobile clients without any development costs!

Why did we develop it?

There is a huge gap between the out-of-the-box SharePoint list forms capabilities, and real form capabilities needed by users.

Companies have no other option but to use additional expensive Form generators, and spend money on custom development and maintenance of these solutions.

KWizCom's SharePoint Forms Bundle fills this gap by providing a complete toolkit that enables non-technical implementers to create sophisticated form-based solutions, both for Web and Mobile users with no development costs!

About KWizCom Corporation

KWizCom, a Gold Certified Microsoft Partner, is a global company, headquartered in Toronto, Canada.

KWizCom is a leading developer of innovative software solutions designed to expand Microsoft SharePoint, out-of-the-box capabilities, streamline workflow, maximize efficiency and enhance over-all productivity.

No need for **InfoPath!**

No need for **Forms servers!**

No need for **development!**

What's included in SharePoint Forms Bundle?

SharePoint List Forms Extensions

Turn SharePoint List forms into real, logic-enabled Web forms with field permissions, field validations, field groups , view permissions and more.

SharePoint List Custom Actions

Easily provide your users with custom-tailored menus for SharePoint lists and list items.

SharePoint Cascading Lookup Field Type

A "Super-lookup" field, that overcomes all SharePoint lookup limitations:

✔ Cross-site lookups
✔ Enables filtering lookup field's content by views
✔ Cascading fields functionality (filtering a field by another field)

SharePoint Mobile Extensions

Easily create custom-tailored SharePoint solutions for tablets and smartphones.

SharePoint Repeating Rows Field Type

Easily and quickly create multi-row forms with just out-of-the-box list forms
